

UZTEL

OILFIELD EQUIPMENT

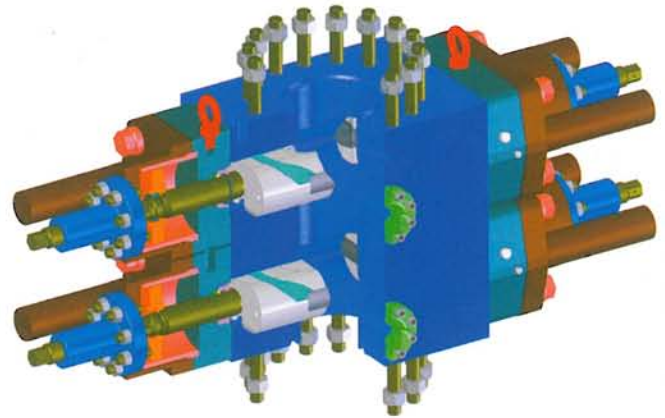

UZTEL is an oilfield equipment manufacturer leader; it has production capacities and well skilled personnel specialized in oil & gas equipments.

The Company has integrated production, with in-house design abilities, applying high technologies according to API Specifications or to other standards.

The Company has QA and QI departments, that benefit from modern labs, assuring the conformity with international standards ISO 9001, ISO 14001 and ISO 18001, CE Certificates, PED 97/23 EC, API 6A, API 6D, API 10D and API 11W.

Facilities:

- Engineering, Research and Development
- Foundry Workshops: provided with modern equipment for control and automation of processes ensure steel cast parts, cast iron and nonferrous alloys up to 2 tones/piece.
- Forging and Heat Treatment Workshops: produce forgings and die forgings up to 400 kilos, primary and secondary heat treatments and thermo-chemical treatments.
- Machining Workshops: equipped with a high variety of CNC machine tools for mechanical processing of all the parts incorporated in our products.
- Assembling and Testing Workshop: ensures products assembling and testing, carried out in accordance with each product's technical specification.
- Metallic Manufacturing Workshop: manufacture structures, especially for oil industry.
- Repair and Maintenance Workshop.
- Storing Houses and Products Warehouses.
- Laboratory and Test Facility.

Products and Services

- Gate valves according to API 6A and API 6D
- Casing-head, Tubing-head, "X"-mas Tree Assembly according to API 6A and to other standards
- Blowout Preventers according to API 16A, Hydraulic Control Units according to API 16D, Flow Manifolds according to API 16C
- Mechanical cementing products (Centralizers according to API 10D)
- Mud conditioning, cleaning and circulation system
- Maintenance and repairs for drilling and workover rigs
- Casting and forgings parts
- Spare parts.
